DECLARATION IN THE FINANCIAL STATEMENTS

We certify that the attached consolidated Financial Statements for the Shrine of Remembrance Trustees have been prepared in accordance with Standing Direction 5.2 of the *Financial Management Act* 1994, applicable Financial Reporting Directions, Australian Accounting Standards and other mandatory professional reporting requirements.

We further state that, in our opinion, the information set out in the consolidated comprehensive operating statement, consolidated balance sheet, consolidated statement of changes in equity, consolidated cash flow statement and accompanying notes presents fairly the

financial transactions during the year ended 30 June 2024 and the consolidated financial position of the Shrine of Remembrance Trustees at 30 June 2024.

At the time of signing, we are not aware of any circumstance which would render any particulars included in the financial statements to be misleading or inaccurate.

We authorise the attached financial statements for issue on 9 October 2024.

INDEPENDENT AUDITOR'S REPORT

OFFICIAL

Independent Auditor's Report

To the trustees of Shrine of Remembrance Trustees

Opinion	<p>I have audited the consolidated financial report of Shrine of Remembrance Trustees (the Shrine) and its controlled entity (together the consolidated entity), which comprises the:</p> <ul style="list-style-type: none"> • consolidated entity balance sheet as at 30 June 2024 • consolidated entity comprehensive operating statement for the year then ended • consolidated entity statement of changes in equity for the year then ended • consolidated entity cash flow statement for the year then ended • notes to the financial statements, including material accounting policy information • declaration in the financial statements. <p>In my opinion, the financial report presents fairly, in all material respects, the financial position of the consolidated entity as at 30 June 2024 and their financial performance and cash flows for the year then ended in accordance with the financial reporting requirements of Part 7 of the <i>Financial Management Act 1994</i> and applicable Australian Accounting Standards.</p>
Basis for Opinion	<p>I have conducted my audit in accordance with the <i>Audit Act 1994</i> which incorporates the Australian Auditing Standards. I further describe my responsibilities under that Act and those standards in the <i>Auditor's Responsibilities for the Audit of the Financial Report</i> section of my report.</p> <p>My independence is established by the <i>Constitution Act 1975</i>. My staff and I are independent of the Shrine and the consolidated entity in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 <i>Code of Ethics for Professional Accountants</i> (the Code) that are relevant to my audit of the financial report in Victoria. My staff and I have also fulfilled our other ethical responsibilities in accordance with the Code.</p> <p>I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.</p>
Other information	<p>My opinion on the financial report does not cover the Other Information and accordingly, I do not express any form of assurance conclusion on the Other Information. However, in connection with my audit of the financial report, my responsibility is to read the Other Information and in doing so, consider whether it is materially inconsistent with the financial report or the knowledge I obtained during the audit, or otherwise appears to be materially misstated. If, based on the work I have performed, I conclude there is a material misstatement of the Other Information, I am required to report that fact. I have nothing to report in this regard.</p>
Trustees' responsibilities for the financial report	<p>The Trustees of the Shrine are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards and the <i>Financial Management Act 1994</i>, and for such internal control as the trustees determine is necessary to enable the preparation and fair presentation of a financial report that is free from material misstatement, whether due to fraud or error.</p> <p>In preparing the financial report, the Trustees are responsible for assessing the Shrine and the consolidated entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless it is inappropriate to do so.</p>

INDEPENDENT AUDITOR'S REPORT

OFFICIAL

Auditor's responsibilities for the audit of the financial report

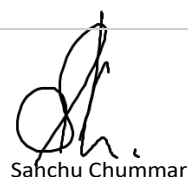

As required by the *Audit Act 1994*, my responsibility is to express an opinion on the financial report based on the audit. My objectives for the audit are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Shrine and the consolidated entity's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the trustees
- conclude on the appropriateness of Trustees' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Shrine and the consolidated entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Shrine and the consolidated entity to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Shrine and consolidated entity to express an opinion on the financial report. I remain responsible for the direction, supervision and performance of the audit of the Shrine and the consolidated entity. I remain solely responsible for my audit opinion.

I communicate with the Trustees regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

NOTES TO FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 JUNE 2024

1 ABOUT THIS REPORT

The Shrine of Remembrance Trustees (the Trustees) is a government agency of the State of Victoria, established under the *Shrine of Remembrance Act* 1978. Its principal address is 2-42 Domain Road, Melbourne Victoria 3004.

A description of the nature of its operations and its principal activities is included in the 'Report of Operations' which does not form part of these financial statements.

BASIS OF PREPARATION

These financial statements have been prepared in Australian dollars on a going concern basis. The accrual basis of accounting has been applied in the preparation of these financial statements whereby assets, liabilities, equity, income and expenses are recognised in the reporting period to which they relate, regardless of when cash is received or paid.

Judgements, estimates and assumptions are required to be made about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on professional judgements derived from historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Revisions to accounting estimates are recognised in the period in which the estimate is revised and also in future periods that are affected by the revision. Judgements and assumptions made by management in the application of Australian Accounting Standards (AASs) that have significant effects on the financial statements and estimates are disclosed under the notes under the heading 'Significant judgements or estimates'.

These financial statements are prepared in accordance with the historical cost convention except for the revaluation of certain non-financial assets and financial instruments as noted. Cost is based on the fair values of the consideration given in exchange for assets.

The consolidated financial statements of the Shrine of Remembrance Trustees incorporate the entity controlled by the Trustees as at 30 June 2024 and the income and expenses for that part of the reporting period in which control existed. The entity over which the Shrine of Remembrance Trustees has control is the Shrine of Remembrance Foundation. In the process of preparing consolidated financial statements all material transactions and balances between consolidated entities are eliminated.

MATERIAL JUDGEMENTS/ESTIMATES

Identifying performance obligations

The Trustees apply significant judgment when reviewing the terms and conditions of funding agreements and contracts to determine contracts to determine whether they contain sufficiently specific and enforceable performance obligations.

If this criteria is met, the contract/funding agreement is treated as a contract with a customer, requiring the Trustees to recognise revenue as or when the promised goods or services are transferred to the beneficiaries. If this criteria is not met, funding is recognised immediately in the net result from operations.

Determining timing of revenue recognition

The Trustees apply significant judgement to determine when a performance obligation has been satisfied and the transaction price that is to be allocated to each performance obligation. A performance obligation is either satisfied at a point in time or over time.

Measuring contract liabilities

The Trustees apply significant judgement to measure progress towards satisfying a performance obligation as detailed above. Where a performance obligation is yet to be satisfied, the Trustees assign funds to the outstanding obligation and record this as a contract liability until the promised good or service is transferred to the customer.

Classifying employee benefit liabilities

The Trustees apply significant judgment when classifying employee benefit liabilities.

Employee benefit liabilities are classified as a current liability if the Trustees do not have an unconditional right to defer payment beyond 12 months. Annual leave and long service leave entitlements (for staff who have exceeded the minimum vesting period) fall into this category.

NOTES TO FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 JUNE 2024

1 ABOUT THIS REPORT (CONT'D)

Employee benefit liabilities are classified as a non-current liability if the Trustees has a conditional right to defer payment beyond 12 months. Long service leave entitlements (for staff who have not yet exceeded the minimum vesting period) fall into this category.

Measuring employee benefit liabilities

The Trustees apply significant judgment when measuring employee benefit liabilities and in determining when employee entitlements are expected to be paid.

With reference to historical data, if the Trustees do not expect entitlements to be paid within 12 months, the entitlement is measured at its present value, being the expected future payments to employees.

Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures, and are discounted at rates determined by reference to market yields on government bonds at the end of the reporting period. Long service leave entitlements fall into this category.

All other entitlements are measured at their nominal value.

Estimating useful life of property, plant and equipment

The Trustees assign an estimated useful life to each item of property, plant and equipment. This is used to calculate depreciation of the asset. The Trustees review the useful life and depreciation rates of all assets each financial year and where necessary, records a change in accounting estimate.

Identifying indicators of impairment

At the end of each year, the Trustees assess impairment by evaluating the conditions and events that may be indicative of impairment triggers. Where an indication exists, the asset is tested for impairment.

The Trustees consider a range of information when performing the assessment, including considering:

- if an asset's value has declined more than expected based on normal use,
- if a significant change in technological, market, economic or legal environment which adversely impacts the way the health service uses an asset,
- if an asset is obsolete or damaged,
- if the asset has become idle or if there are plans to discontinue or dispose of the asset before the end of its useful life,
- if the performance of the asset is or will be worse than initially expected.

Where an impairment trigger exists, the Trustees apply significant judgement and estimate to determine the recoverable amount of the asset.

COMPLIANCE INFORMATION

These general-purpose financial statements have been prepared in accordance with the *Financial Management Act 1994* (FMA) and applicable AASs which include interpretations, issued by the Australian Accounting Standards Board (AASB). In particular, they are presented in a manner consistent with the requirements of AASB 1049 *Whole of Government and General Government Sector Financial Reporting*.

Where appropriate, those AAS paragraphs applicable to not-for-profit entities have been applied. Accounting policies are selected and applied in a manner which ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events is reported.

Unless otherwise stated, all accounting policies applied are consistent with those of the prior year.

2 FUNDING DELIVERY OF OUR SERVICES

INTRODUCTION

The Trustees have the following overarching functions:

One — Responsibility for the care, management, maintenance and preservation of the Shrine of Remembrance;

Two — Development, promotion, management and the staging of ceremonial activities and events to commemorate the service and sacrifice of Victorians and Australians in war, conflict, peacekeeping and peacemaking; and

Three — Development, promotion, management and implementation of public programs to inform, educate and promote understanding among Victorians and visitors about the history, experience, service and sacrifice of Victorians and Australians in war, conflict, peacekeeping and peacemaking.

Four — To enable the Trustees to fulfil their objectives and provide outputs, it receives grant funding from the Victorian Government. The Trustees also receive donations, sponsorships, investment income and revenue from merchandise sales and fee for service activities.

Department of Veterans' Affairs		–	74,000
Total Income from grants		6,085,380	6,633,612

2.2.1 GRANTS REVENUE RECOGNITION

The Trustees have determined that all grant income is recognised as income in accordance with AASB 1058, except for grants that are enforceable and with sufficiently specific performance obligations and accounted for as revenue from contracts with customers in accordance with AASB 15.

During the year, additional grant revenue of \$374,550 (2023: \$2,650,000) was received from the State Government for the provision of capital works at the Shrine of Remembrance. Total funding provided, including prior years, was \$6,324,550. As at 30 June 2024 \$1,183,282 (2023: \$1,760,000) was recognised as revenue with the balance of \$2,391,268 (2023: \$3,200,000) shown as deferred revenue due to specific performance obligations yet to be completed.

Income from grants that are enforceable and with sufficiently specific performance obligations are accounted for as revenue from contracts with customers. These grants relate to the provision of commemorative and exhibition services. Revenue is recognised when the Trustees satisfy the performance obligation by providing the relevant services to the relevant departments. This is recognised based on the consideration specified in the funding agreement and to the extent that it is highly probable a significant reversal of the revenue will not occur. The funding payments are normally received in advance or shortly after the relevant obligation is satisfied.

Income from grants without any sufficiently specific performance obligations, or that are not enforceable, is recognised when the Trustees have an unconditional right to receive cash which usually coincides with receipt of cash. On initial recognition of the asset, the Trustees recognise any related contributions by owners, increases in liabilities, decreases in assets, and revenue ('related amounts') in accordance with other Australian Accounting Standards. Related amounts may take the form of:

- (a) Contributions by owners, in accordance with AASB 1004;
- (b) revenue or a contract liability arising from a contract with a customer, in accordance with AASB 15;
- (c) a lease liability in accordance with AASB 16;
- (d) a financial instrument, in accordance with AASB 9; or
- (e) a provision, in accordance with AASB 137 Provisions, Contingent Liabilities and Contingent Assets.

2.4.1 OPERATING ACTIVITIES INCOME RECOGNITION

Revenue from the sale of goods is recognised when:

- the Trustees no longer have any of the significant risks and rewards of ownership of the goods transferred;
- the Trustees no longer have continuing managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold;
- the amount of revenue, and the costs incurred or to be incurred in respect of the transactions, can be reliably measured; and
- it is probable that the economic benefits associated with the transaction would flow to the Trustees.

Revenue from the supply of services is recognised by reference to the stage of completion of the services performed. The income is recognised when:

- the amount of the revenue, stage of completion and transaction costs incurred can be reliably measured; and
- it is probable that the economic benefits associated with the transaction would flow to the Trustees.

3.1.2 EMPLOYEE BENEFITS IN THE BALANCE SHEET

Provision is made for benefits accruing to employees in respect of salaries and wages, annual leave and long service leave (LSL) for services rendered up to the reporting date and recorded as an expense during the period the services are delivered. The increase in total leave provisions over the year is due to a combination of increased accrued annual leave for all staff, increased number of staff with unconditional LSL entitlements, increase in superannuation guarantee rate and expected wage inflation rate of 4.35% as advised by the Department of Treasury and Finance.

WAGES AND SALARIES, ANNUAL LEAVE AND SICK LEAVE

Liabilities for wages and salaries, including non-monetary benefits annual leave and accumulating sick leave are recognised in the provision for employee benefits, classified as current liabilities. Those liabilities which are expected to be settled within 12 months of the reporting period are measured at their nominal values.

Those liabilities that are not expected to be settled within 12 months are also recognised in the provision for employee benefits as current liabilities but are measured at present value of the amounts expected to be paid when the liabilities are settled using the remuneration rate expected to apply at the time of settlement.

Employment on-costs such as workers' compensation and superannuation are not employee benefits. They are disclosed as a component of the provision for employee benefits where the employment to which they relate has occurred.

Unconditional LSL is disclosed in the notes to the financial statements as a current liability, even where the Trustees does not expect to settle the liability within 12 months because it will not have the unconditional right to defer the settlement of the entitlement should an employee take leave within 12 months.

The components of this current LSL liability are measured at:

- Undiscounted value — if the Shrine expects to wholly settle within 12 months; and
- Present value — if the Shrine does not expect to wholly settle within 12 months.

Conditional LSL is disclosed as a non-current liability. There is an unconditional right to defer the settlement of the entitlement until the employee has completed the requisite years of service. This non-current LSL Liability is measured at present value.

NOTES TO FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 JUNE 2024

4 KEY ASSETS AVAILABLE TO SUPPORT OUTPUT DELIVERY (CONT'D)

4.1 PROPERTY, PLANT AND EQUIPMENT (CONT'D)

Land is recognised initially at cost and subsequently measured at fair value less the community service obligation (CSO).

Heritage Assets—Building is recognised initially at cost and subsequently measured at fair value less accumulated depreciation and impairment.

Heritage Assets—Cultural Assets are recognised initially at cost and subsequently measured at fair value.

Plant & Equipment and Furniture & Fittings are recognised initially at cost and subsequently measured at fair value less accumulated depreciation and impairment. Depreciated historical cost is generally a reasonable proxy for depreciated replacement cost because of the short lives of the assets concerned.

Non-current physical assets measured at fair value are revalued in accordance with FRD 103 *Non-financial physical assets*. This revaluation process normally occurs at least every five years, based upon the asset's Government Purpose Classification, but may occur more frequently if fair value assessments indicate material changes in values. Independent valuers are used to conduct these scheduled revaluations and any interim revaluations are determined in accordance with the requirements of the FRD's. Revaluation increments or decrements arise from differences between an asset's carrying value and fair value.

Non-financial physical assets such as heritage assets are measured at fair value with regard to the property's highest and best use after due consideration is made for any legal or physical restrictions imposed on the asset, public announcements or commitments made in relation to the intended use of the asset. Theoretical opportunities that may be available in relation to the asset are not taken into account until it is virtually certain that the restrictions will no longer apply. Therefore, unless otherwise disclosed, the current use of these non-financial physical assets will be their highest and best use.

RESTRICTIVE NATURE OF LAND, CULTURAL AND HERITAGE ASSETS

The Trustees hold land, cultural and heritage assets that are deemed worthy of preservation because of the social rather than financial benefits they provide to the community. Consequently, there are certain limitations and restrictions imposed on their use and/or disposal.

NON-FINANCIAL PHYSICAL ASSETS CONSTRUCTED BY THE TRUSTEES

The cost of constructed non-physical assets includes the cost of all materials used in construction, direct labour on the project, and an appropriate proportion of variable and fixed overheads

LAND

Land is valued at its fair value for existing use as the land is subject to a King's Caveat that forbids registration of any transfer or dealing with any part of the land by the entity. The Land is valued using the market approach, which compares the land to recent comparable sales although it is adjusted for the community service obligation (CSO) to reflect the specialised nature of the land being valued. The CSO adjustment reflects the valuer's assessment of the impact of restrictions associated with the land.

HERITAGE ASSETS—BUILDING

The Shrine of Remembrance building is classified as a Heritage Asset. The depreciated replacement cost is the valuation method used, adjusted for the associated depreciation on a useful life basis.

HERITAGE ASSETS—CULTURAL ASSETS

Cultural Assets refers to other war memorial artefacts, structures and collection items, which are valued on a market based direct comparison approach.

PLANT, EQUIPMENT, FURNITURE AND FITTINGS

Plant, equipment, furniture and fittings are recorded at fair value. This is normally determined with reference to the asset's depreciated replacement cost.

Intangible assets are initially recognised at cost. Subsequently, intangible assets with finite useful lives are carried at cost less accumulated amortisation. Costs incurred subsequent to initial acquisition are capitalised when it is expected that additional future economic benefits will flow to the Trustees. Intangible assets consist of items of software and the Shrine

website. Costs in relation to the web site controlled by the Trustees are charged as expenses in the period in which they are incurred unless they relate to the acquisition of an asset, in which case they are capitalised as Intangible Assets and amortised over their period of expected benefit (10 years).

Statutory

GST receivable	51,230	43,860
----------------	--------	--------

Total receivables	215,141	116,970
--------------------------	----------------	----------------

Contractual receivables are classified as financial instruments and categorised as 'financial assets at amortised costs'. They consist predominantly of debtors in relation to goods and services and accrued investment income and are initially recognised at fair value plus any directly attributable transaction costs. The Trustees hold contractual receivables with the objective to collect the contractual cash flows and therefore subsequently measured at amortised cost using the effective interest method, less any impairment.

Statutory receivables do not arise from contracts and are recognised and measured similarly to contractual receivables (except for impairment) but are not

classified as financial instruments for disclosure purposes. The Trustees apply AASB 9 for initial measurement of the statutory receivables and, as a result, statutory receivables are initially recognised at fair value plus any directly attributable transaction cost.

Receivables consist of contractual receivables, such as debtors in relation to goods and services, accrued investment income and statutory receivables. A provision for doubtful receivables is made when there is objective evidence that these debts will not be collected. Bad debts are written off when identified.

5 OTHER ASSETS AND LIABILITIES (CONT'D)

Payables consist of:

- **contractual payables** classified as financial instruments and measured at amortised cost. Accounts payable represent liabilities for goods and services provided to the Trustees prior to the end of the financial year that are unpaid. The amounts are unsecured and are usually paid within 60 days of recognition; and
- **statutory payables**, that are recognised and measured similarly to contractual payables, but the terms and conditions of amounts payable to the government and agencies vary according to the particular agreements, they are not classified as financial instruments and not included in the category of financial liabilities at amortised cost, because they do not arise from contracts.
- **Deferred revenue** Grant consideration was also received from the State Government in support of capital works, exhibition and commemorative services. Grant income is recognised when the relevant performance obligations have been completed. The remaining grant revenue is recognised when the services are rendered in the following year.

The contractual maturity analysis of the Trustees financial liabilities is as follows:

	CARRYING AMOUNT \$	NOMINAL AMOUNT \$	MATURITY

7 RISKS, CONTINGENCIES AND VALUATION JUDGEMENTS

INTRODUCTION

The Trustees is exposed to risk from its activities and outside factors. In addition, it is often necessary to make judgements and estimates associated with recognition and measurement of items in the financial statements.

This section sets out financial instrument specific information (including exposures to financial risks) as well as those items that are contingent in nature or require a higher level of judgement to be applied, which for the Trustees, relates mainly to fair value determination.

STRUCTURE

- 7.1 Financial instruments specific disclosures
- 7.2 Contingent assets and contingent liabilities
- 7.3 Fair value determination

7.1 FINANCIAL INSTRUMENTS SPECIFIC DISCLOSURES

INTRODUCTION

Financial instruments arise out of contractual agreements between entities that give rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Due to the nature of the Trustees's activities, certain financial assets and financial liabilities arise under statute rather than a

contract. Such financial assets and financial liabilities do not meet the definition of financial instruments in AASB 132 *Financial Instruments: Presentation*. For example, statutory receivables do not meet the definition of financial instruments as they do not arise under contract.

CATEGORIES OF FINANCIAL ASSETS

Financial assets at amortised cost

Financial assets are measured at amortised cost if both of the following criteria are met and the assets are not designated as fair value through net result.

- The assets are held by the Trustees to collect the contractual cash flows, and
- the assets' contractual terms give rise to cash flows that are solely payments of principal and interest.

These assets are initially recognised at fair value plus any directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method less any impairment.

The Trustees recognise the following assets in this category:

- cash and deposits,
- trade receivables (excluding statutory receivables)

Financial assets at fair value through net result

Equity instruments that are held for trading are classified as fair value through net result. Other financial assets are required to be measured at fair value through net result unless they are measured at amortised cost or fair value through other comprehensive income.

The Trustees recognise Investments and other financial assets in this category.

CATEGORIES OF FINANCIAL LIABILITIES

Financial liabilities at amortised cost

Financial instrument liabilities are initially recognised on the date they are originated. They are initially measured at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these financial instruments are measured at amortised cost with any difference between the initial recognised amount and the redemption value being recognised in profit and loss over the period of the interest-bearing liability, using the effective interest rate method. The Trustees recognise payables (excluding statutory payables) in this category.

NOTES TO FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 JUNE 2024

7 RISKS, CONTINGENCIES AND VALUATION JUDGEMENTS (CONT'D)

7.1 FINANCIAL INSTRUMENTS SPECIFIC DISCLOSURES (CONT'D)

CATEGORIES OF FINANCIAL LIABILITIES (CONT'D)

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the asset have expired.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires.

Offsetting financial instruments

Financial instrument assets and liabilities are offset, and the net amount presented in the balance sheet when, and only when, the Trustees have a legal right to offset the amounts and intend either to settle on a net basis or to realise the asset and settle the liability simultaneously.

7.1.3 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Trustees financial risk management program seeks to manage risks and the associated volatility of its financial performance.

The main purpose in holding financial instruments is to prudently manage the Trustees financial risks within the government policy parameters.

The Trustees main financial risks include credit risk, liquidity risk, interest rate risk and equity price risk.

The Trustees use different methods to measure and manage the different risks to which it is exposed. Primary responsibility for the identification and management of financial risks rests with the Accountable Officer.

Financial instruments: Credit risk

Credit risk represents the loss that would be recognised if counterparties failed to perform as contracted. The entity's maximum exposure to credit risk at balance date in relation to each class of recognised financial asset is represented by the carrying amount of those assets as indicated in the balance sheet.

Financial Assets that are either past due or impaired

Currently the entity does not hold any collateral as security nor credit enhancements relating to any of its financial assets. As at the reporting date, there is no indication that the financial assets have been impaired.

There are no financial assets that have had their terms renegotiated so as to prevent them from being past due or impaired, and they are stated at the carrying amounts as indicated. The following table discloses the ageing only of financial assets that are past due but not impaired.

Financial instruments: Liquidity risk

Liquidity risk arises from being unable to meet financial obligations as they fall due. The Trustees operate under the policy of settling financial obligations within 30 days and in the event of a dispute, make payments within 30 days from the date of resolution. The Trustees manage risk through monitoring future cash flows and maturities planning to ensure adequate holding of high-quality liquid assets and dealing in highly liquid markets. The Trustees exposure to liquidity risk is deemed insignificant based on prior periods' data and current assessment of risk. Maximum exposure to liquidity risk is the carrying amounts of financial liabilities.

Financial instruments: Market risk

The Trustees exposure to market risk is primarily through interest rate risk and equity price risk. Objectives, policies and processes used to manage this risk are disclosed below.

Interest rate risk

Fair value interest rate risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market interest rates. The Trustees do not hold any interest-bearing financial instruments that are measured at fair value, and therefore has no exposure to fair value interest rate risk. Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Trustees have minimal exposure to cash flow interest rate risks through cash and deposits that are at floating rate.

Management has concluded for cash at bank as a financial asset that can be left at floating rate without necessarily exposing the Trustees to significant risk, management monitors cash flows and movement in interest rates on a daily basis. The carrying amounts of financial assets and financial liabilities that are exposed to interest rates and the Trustees sensitivity to interest rate risk are set out in the table that follows.

SENSITIVITY DISCLOSURE ANALYSIS AND ASSUMPTIONS

The Trustees sensitivity to market risk is determined based on the observed range of actual historical data. The Trustees's fund managers cannot be expected to predict movements in market rates and prices. Sensitivity analyses shown are for illustrative purposes only. The following movements are 'reasonably possible' over the next 12 months:

- a movement of 200 basis points up (2023:200 basis points up) in market interest rates (AUD); and
- a movement of 15 per cent up and down (2022:15 per cent) for the top ASX 200 index.

The tables that follow show the impact on the Trustees net result and equity for each category of financial instrument held by the Trustees at the end of the reporting period, if the above movements were to occur.

EQUITY PRICE RISK

The Trustees are exposed to equity price risk through its managed investments. Such investments are allocated and traded to match the investment objectives appropriate for the Trustees liabilities.

The Trustees have appointed VFMC to manage its investment portfolio in accordance with the Investment Risk Management Plan approved by the Treasurer.

The fund manager on behalf of the Trustees closely monitors performance and manages the equity price risk through diversification of its investment portfolio.

The Trustees sensitivity to equity price risk is set out below.

7.2 CONTINGENT ASSETS AND CONTINGENT LIABILITIES

Contingent assets and contingent liabilities are not recognised in the balance sheet but are disclosed and, if quantifiable, are measured at nominal value. Contingent assets and liabilities are presented inclusive of GST receivable or payable respectively.

Contingent assets

Contingent assets are possible assets that arise from past events, whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

These are classified as either quantifiable, where the potential economic benefit is known, or non-quantifiable.

There were no contingent assets based on the above definitions relating to the Trustees at 30 June 2024 (30 June 2023: Nil).

Contingent liabilities

Contingent liabilities are:

- Possible obligations that arise from past events, whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- present obligations that arise from past events but are not recognised because:
 - it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligations; or
 - the amount of the obligations cannot be measured with sufficient reliability.

Contingent liabilities are also classified as either quantifiable or non-quantifiable.

There were no contingent liabilities based on the above definitions relating to the Trustees at 30 June 2024 (30 June 2023: Nil).

7.3 FAIR VALUE DETERMINATION

This section sets out information on how the Trustees determined fair value for financial reporting purposes. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following assets and liabilities are carried at fair value:

- Financial assets and liabilities at fair value through operating result,
- land, buildings, infrastructure, plant and equipment.

In addition, the fair values of other assets and liabilities that are carried at amortised cost, also need to be determined for disclosure purposes.

The Trustees determines the policies and procedures for determining fair values for both financial and non-financial assets and liabilities as required.

Fair value hierarchy

Consistent with AASB 13 Fair Value Measurement, the Trustees determine the policy and procedure for recurring fair value measurements such as Land & Heritage Assets.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- **Level 1** — Quoted (unadjusted) market prices in active markets for identical assets or liabilities,
- **Level 2** — valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable,
- **Level 3** — valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the Trustees have determined classes of assets and liabilities on the basis of nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

The Valuer-General Victoria is the Trustees's independent valuation agency. The Trustees monitors changes in the fair value of each asset through relevant data sources to determine whether revaluation is required.

Fair value determination of financial assets and liabilities

The fair values and net fair values of financial assets and financial liabilities are determined as follows:

- **Level 1** — The fair value of financial assets and financial liabilities with standard terms and conditions and traded in active liquid markets are determined with reference to quoted market prices; and
- **Level 2** — valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- **Level 3** — the fair value of other financial assets and liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

The entity considers that the carrying amount of financial assets and financial liabilities recorded in the financial report to be a fair approximation of their fair values, because of the availability of accurate market prices or their short-term nature and the expectation that they will be paid in full.

8.2 RESERVES (CONT'D)

Revaluation increments are recognised in other economic flows—other comprehensive income and credited directly to the physical asset revaluation surplus, except that, to the extent that an increment reverses a revaluation decrement in respect of that class of asset previously recognised as an expense, the increment is recognised as revenue.

Revaluation decrements are recognised immediately as expenses, except that, to the extent that a credit balance exists in the asset revaluation reserve in respect of the same class of assets, they are debited directly to the physical asset revaluation surplus.

Revaluation increments and decrements are offset against one another within a class of non-current assets, but not otherwise.

8.3 RESPONSIBLE PERSONS

The persons who held the positions of Minister and Accountable Officer in the Shrine of Remembrance from 1 July 2023 to 30 June 2024 were:

Responsible Minister

- The Hon Natalie Suleyman MP, Minister for Veterans

Trustees

- Captain Stephen Bowater OAM RAN (CHAIRMAN)
- Colonel Catherine (Bunny) Carrigan (to 2 March 2024)
- The Right Hon the Lord Mayor Sally Capp AO

8.4 RELATED PARTIES

The Shrine of Remembrance is a Victorian Government Entity. Related parties of the Shrine include:

- all key management personnel and their close family members;
- all cabinet Ministers and their close family members; and
- all departments and public-sector entities that are controlled and consolidated into the whole of State consolidated financial statements.

Significant transactions with government-related entities

The Trustees received grant funding from the Department of Families, Fairness and Housing of \$3,767,220 (2023: \$6,053,410) and Department of Energy, Environment and Climate Action of \$1,098,000 (2023: \$1,056,000).

Key Management Personnel (KMP) includes the Portfolio Ministers, the Trustees and the Chief Executive Officer.

The compensation detailed below excludes the salaries and benefits the Portfolio Minister receives. The Minister's remuneration and allowances are set by the *Parliamentary Salaries and Superannuation Act 1968* and are reported in the State's Annual Financial Report.

8.6 CONTRIBUTED CAPITAL

Consistent with Australian Accounting Interpretation 1038 *Contributions by Owners Made to Wholly-Owned Public Sector Entities* and FRD 119 *Contributions to Owners*, appropriations for additions to the net asset base have been designated as contributed capital. Other transfers that are in the nature of contributions or distributions that have been designated as contributed capital are also treated as contributed capital.

8.7 ECONOMIC DEPENDENCY

A significant proportion of the revenue is received through grant funding from the Victorian State Government. The Trustees is reliant on this funding to meet their commitments as and when they fall due.

8.8 RESOURCES PROVIDED FREE OF CHARGE

The City of Melbourne provides non-monetary support in grounds maintenance of the Shrine Reserve and administrative services to the Trustees free of charge. The value of this support cannot be reliably valued.

The Victoria Police provides non-monetary support in security to the Trustees free of charge. The value of this support cannot be reliably valued.

The Trustees also receive volunteer services and depend on volunteers to support delivery of educational programs. The value of this support cannot be reliably valued.

8.11 AUSTRALIAN ACCOUNTING STANDARDS ISSUED THAT ARE NOT YET EFFECTIVE

Certain new and revised accounting standards have been issued but are not effective for the 2023–24 reporting period. These accounting standards have not been applied to the Model Financial Statements.

The State is reviewing its existing policies and assessing the potential implications of these accounting standards which includes:

STANDARD/ INTERPRETATION	SUMMARY	IMPACT ON PUBLIC SECTOR ENTITY FINANCIAL STATEMENTS
AASB 2023-10 <i>Amendments to Australian Accounting Standards — Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities</i>	<p>AASB 2023-10 amends AASB 13 Fair Value Measurement by adding authoritative implementation guidance and illustrative examples for fair value measurements of non-financial assets of not-for-profit public sector entities not held primarily for their ability to generate net cash inflows.</p> <p>The Standard:</p> <ul style="list-style-type: none"> • specifies that an entity needs to consider whether an asset's highest and best use differs from its current use only when it is held for sale or held for distributions to owners under AASB 5 Non-current Assets Held for Sale and Discontinued Operations or if it is highly probable that it will be used for an alternative purpose; • clarifies that an asset's use is 'financially feasible' if market participants would be willing to invest in the asset's service capacity, considering both the capacity to provide needed goods or services and the resulting costs of those goods and services; • specifies that if both market selling price and some market participant data required to fair value the asset are not observable, an entity needs to start with its own assumptions and adjust them to the extent that reasonably available information indicates that other market participants would use different data; and • provides guidance on the application of the cost approach to fair value, including the nature of costs to be included in a reference asset and AASB 17 Insurance Contracts AASB 2023-8 	<p>The impact of this standard is under consideration.</p>
